

New Product Bulletin – Accent Plates

We are pleased to introduce our new Accent Plate kits, allowing you to create your own custom wooden wall plates with a preplated metal accent.

Using the included instructions & full size templates, make your own wall plate from your choice of solid wood; either contrasting to furniture present in the room, or matching it to perfection. Then set it off by adding one of three available Accent Plates available in a wide choice of finishes.

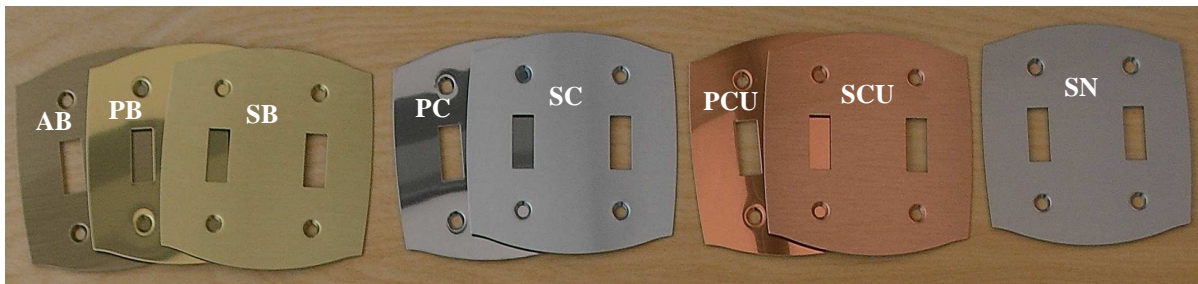

Duplex Receptacle Single Toggle

Double Toggle

Each Accent Plate includes matching plated screws, and a metal back plate to insulate the wooden plate from the junction box.

Finish Abbreviations	Antique Brass (AB)	Polished Brass (PB)	Satin Brass (SB)	Polished Chrome (PC)	Satin Chrome (SC)	Polished Copper (PCU)	Satin Copper (SCU)	Satin Nickel (SN)
