

## ***New Product Bulletin – Solid Copper Candle Holders***

***October, 2007***

Candle holders should be as functional as they are decorative; our new copper candle holders claim both. All are made from pure stamped solid copper, which ages naturally over time developing a rich patina, or if you prefer, you can keep them bright by periodically polishing them with common copper cleaners.

### **Round Holders:**

With plain or embossed walls, these low profile holders accommodate tea lights, votives and pillars.
