

TRIPAR / Booth #552

Turn any small recessed halogen fixture into a projection light. The Projection System clips onto trims from 4 to 5½ inches round or 4-inch square models. It comes with a diaphragm that emits varying amounts of ambient light, while three motifs (moon/stars, sun/palms, and musical notes) are thrown onto floors, tables, or walls. Custom gobos can also be created. Two models for wide and narrow beams and four finishes may be specified.

SATCO® PRODUCTS / Booth #211

From the NUVO™ Lighting division, the Rockport Tuscano pendant (Model #60-1093) has a band of faux inlaid stones. The frame's Dorado Bronze finish and the sepia-colored glass continue the earth-toned palette. Measuring 24 inches in diameter, the piece is lamped with four 100-watt A19 bulbs and is part of a complete family that may also be ordered in a Brushed Nickel finish with grey-toned banding.

SURE-LITES / Booth #918 and #928

This emergency light has a unique sconce shape with minimal presence, allowing it to blend into a surrounding space. It possesses high-output xenon lamping, a self-diagnostic system, and a FasTest photocell test switch. It is UL-listed for -4° to 104°F ambient environments.

Sure-Lites is a division of Cooper Lighting.
