#### TRIPAR OFFERS BULLETIN ON WALL WASH ADAPTER

A single-page release describes the benefits of the Wall Wash Adapter, which converts any small downlight without extensive retrofitting. Retailing for approximately \$5, it uses rare earth magnets combined with a mirror to unobtrusively deflect the light coming from a recessed light onto the wall. Ideal to highlight artwork, it is best used with MR16 and similar small lamp sizes. The product, created by Montreal-based Tripar®, is represented in the U.S. by Bill Brown Sales. For more information call (800) 621-1348, or visit [www.triparinc.com](http://www.triparinc.com)
